

## Chess Club at AUDUBON ELEMENTARY

**TIME FOR CLASS:** Mondays 3:10 pm to 4:10 pm

**CLASS DATES:** 8 Sessions: January 11-March 22; No class 1/18, 2/15, 3/15

**CLASS FEE:** \$75 for the 8 week session.

The game of chess is known to enhance the development of valuable critical thinking and problem solving skills in young children that later can be applied in math and science. Chess is a universal learning tool; it offers a rare combination of learning and playing.

In the chess club students will play chess games, solve chess puzzles, learn chess strategies, and get all the tools to be ahead in the game. The instructors will follow Chess Academy curriculum developed by WGM Elena Donaldson, Three Time US Women's Champion.

Our goal is to create a fun and challenging environment for developing important academic skills using game of chess as a tool. We also will help students who want to play in scholastic chess tournaments. WGM Elena will be available to answer questions by email or meet with parents at the local scholastic tournaments.

For kids who want to seriously improve their chess skills, this is a great opportunity!
