

MATH CHALLENGERS RAISE THE ROOF!

Audubon Math Challenge participants are raising the roof! There were 97 kids who completed Math Challenge 3, so let's make it a goal to break 100 for Math Challenge 4! Please note that kindergartners are welcome to participate.

Remember, it is hard to award prizes to students who do write their first and last names on their papers as well as their teacher and grade. Keep up the good work! Those who participate in at least 12 challenges this year will be recognized at the end of school award ceremony.

BOUNCE UP YOUR MATH KANGAROO SKILLS!

There will be an open contest practice session to prepare for the XV Math Kangaroo Competition. It is open for students in 1st through 6th grade. This session will give your child an idea of what the Math Kangaroo competition is like.

Contest Practice Session

When: December 5, 2011, from 6 to 7:15 p.m.

Where: Redmond Regional Library.

Practice session is FREE. Space is limited. [Register](#) by November 18.

For Rockwell, contact Elly Sarwono at mathinaction@gmail.com

For Audubon, contact Kari Tai at karimorehouse@hotmail.com

For Horace Mann, contact Jelena Pavicevic at jpavicevic@hotmail.com

What is Math Kangaroo?

Math Kangaroo is a mathematical competition with the flavor of a game—introducing participants to math challenges in a fun and inspiring way. This competition boosts students' math enthusiasm and self-confidence by measuring what they know rather than judging them in a team situation. More than 40 countries participate in this event that measures logical reasoning and analytical thinking.

The actual contest will be held on **March 15, 2012. Deadline to register is December 31, 2011 or when centers are full. Participation fee is \$20 (paid directly online at the below link).**

More information can be found at <http://mathkangaroo.org/2010page/kangur/main.htm>
